

# PARENT-CHILD HOME PROGRAM

Set the stage for every child's success.

## INVESTMENT OPPORTUNITY

### Parent-Child Home Program

#### BACKGROUND

Three out of four low-income kids in Washington are behind their peers when they start kindergarten. These kids have as much potential as any child. They and their parents simply face bigger obstacles.

The Parent-Child Home Program (PCHP) zeroes in on the preparation gap by supporting parents during the crucial early years of their children's development. The program engages low-income, isolated families when and where it counts most—in their homes when kids are 2 and 3 years old, a key period of social, emotional and cognitive development. National research has long shown that kids who go through the program are better prepared than their peers who don't participate in the program. Kids who participate in PCHP are 30% more likely to graduate.

#### OPPORTUNITY

With your support, we can make the Parent-Child Home Program available to even more low-income families. Our goal is to double the percentage of kids in our community who are ready for kindergarten—from 40% in 2015 to 80% in 2020.
